CITY OF MILWAUKEE.

WEDNESDAY..............................JAN. 9.

☞ We have no later news from Madison than our Editorial Correspondence, of yesterday morning, which we should have had in time for yesterday's issue. The train due here from Madison, had not arrived at the hour of going to press.

EDITORIAL CORRESPONDENCE.

MADISON, Tuesday, 4 A. M., January 8, 1856.

Reached here last evening, at 9½ o'clock.—The morning train, with the military companies and other guests, which left Milwaukee at 7½ yesterday morning, on account of the heavy load and the inefficiency of the engine, did not reach here till 3½ P. M. The companies marched down to the Governor's house, received him and escorted him to the Capitol, where the oath of office was administered to him, by Judge Collins.

At noon, Coles Bashford appeared in the Supreme Court Room, where the constitutional oath was administered to him by Chief Justice Whiton. He deposited a copy of the oath with the Deputy Secretary of State, to be filed.—The Secretary returned it to him, by mail, with the following note:

Secretary's Office, MADISON, January 7, 1856.

HON. COLES BASHFORD—

Sir: Not knowing any provision of law requiring the oath of office of Governor to be filed in this office, and not desiring to file any private papers among the public acts and papers kept in this office, I herewith return you the paper purporting to be your oath of office as Executive of this State.

Respectfully Yours,
ALEXANDER T. GRAY,
Secretary of State

We understand Mr. Bashford took the oath as a necessary preliminary step to contesting Governor Barstow's right to the office, and that Judge Whiton, in administering the oath, performed a ministerial and not a judicial act, and in no wise intimated an opinion as to the justice of Mr. Bashford's claim.

He had, in reply to an invitation of Governor Barstow last Saturday, agreed to administer the oath to him at 2½ P. M. But the Governor, hearing that he had administered the oath to Mr. Bashford, sent him a note informing him that he should not expect his services, and sent for Judge Collins, who administered the oath to Governor Barstow and all the State Officers. The whole subject has made a great deal of talk, but I learn nothing as to the intentions of the Senate and Assembly in relation to it, nor does any one know, for neither body has met and consulted respecting it.

The ball in the early part of the day, was a perfect jam—so those said who were present. Later there was more room, and everything passed off quietly and happy, the party breaking up about 3 o'clock A. M.

The Military suffered a great deal from the cold, on parade, and many of them froze their ears and fingers. The Light Guards made a fine appearance, and won the admiration of all. Some of them complained, and we think justly, too, of neglect as invited guests. There is going to be a lively time.

D. M. Seaver leaves the post of Assistant-Treasurer, and Carl Habisch, who has been Clerk in the office for some time, takes his place.

C. A. Cross, of Racine, is appointed Ass't-Superintendent under Mr. Barry. The other officers, we believe, retain their places.

S. M. BOOTH.

The Republican Gathering.

The press at the North is freely discussing the propriety of having a Republican consultation meeting at Pittsburg, on the 22d of next month—Washington's birth-day. The general opinion seems to be decidedly in favor of the meeting, and we hope immediate steps will be taken by the States to have a fair and full representation. Everything depends in the coming campaign upon unity and harmony of action on the part of the Republicans. With it, success is probable—without it, impossible.—The tendency of such a meeting as the one proposed, where delegates could interchange views and opinions, and decide upon some settled course, could not have other than a beneficial effect. It would do much towards cementing the conflicting elements that now threaten the Republican organization, and by softening party animosities and prejudices, tend to ensure the success of the great principles upon which the Republican party is based.

We hope the press of Wisconsin will not be backward in urging the meeting. Let the voice of all those journals who are in favor of advancing the cause of Freedom and checking the usurpations of the Slave Power, be heard, and if the Pittsburg meeting is to be held, let Wisconsin be fairly and fully represented. It will be a great and mighty struggle in the next presidential campaign. Nor can we commence preliminary measures too soon.

We are decidedly in favor of the Pittsburg meeting, and we earnestly hope it may be determined upon.

Plagiarism.

A writer—evidently not the responsible editor—in the Elkhorn Independent, accuses us of plagiarism. The charge is at once unfounded and injurious. There is no paper in the State, we venture to say, that publishes more original matter than the Free Democrat. Not unfrequently three fourths of the whole paper is made up in editorials alone. Yet of course it would be impossible for us not to select news and miscellaneous matter from other journals. In doing this we always endeavor to condense and abbreviate, in order to lay as much variety before our readers as possible, and we may sometimes accidentally omit to give the proper credit, but if we do, it is entirely unintentional, and none regret it more than ourselves. And when a person, as does the writer in the Independent, charges us, with wilful plagiarism, he says that which is wholly and unequivocally false, and which we feel certain the responsible editor of the Independent would be slow to endorse.

Why the House Remains Unorganized.

Horace Greeley, in writing to the *Tribune*, gives some plain reasons why the House has not as yet succeeded in effecting an organization. He says:—

1. Because several members elected as opponents of the policy respecting Slavery Extension embodied in Douglas' Nebraska bill, have betrayed their trust, proved false to their express or implied pledges, and vote for one or another candidate who stands expressly pledged to acquiesce in an active support of the Douglas Nebraska policy; and

2. Because men who still claim to be Anti-Nebraska vote steadily against the candidate of the great body of the Anti Nebraska members, and so prevent a choice; and

3. Because men who vote uniformly for Banks constantly intrigue to defeat him; nightly caballing against him, threatening to bolt, swearing they will vote for him no longer, and giving secret and confident assurance to his open and manly adversaries, that the Banks vote will soon break up, and exhorting them to hold out against a Plurality rule or any course which may result in his election.

These being the facts of the case it is the evident duty of the Banks men, representing as they do the Anti-Slavery sentiment of the entire North to stand firm, nor yield, nor waver. As the Chicago *Tribune* says:—

We suppose there is not a real friend of Freedom in the country, who does not desire that the men who have steadily voted for Banks should continue firm in their determination to support him and only him, until, if necessary, the expiration of the period for which they were elected. Upon him the North has made a stand and and there let her Representatives remain, and they may be assured that they will be backed up by the hearty commendation of their constituents at home. The North can wait for all legislation she needs. Her people are not desirous of stealing Cuba, of formally annexing Nicaragua, or of plunging into hostilities with Great Britian. She has not an army of the scions of noble families, dependent upon the passage of the Appropriation Bill to drive the wolf from their doors. She has no ulterior or treasonable purpose to serve. She is honest, and can afford to wait the day when honesty shall triumph.

We say to the Representatives of the Republican sentiment, Stand Firm.

WAR WITH ENGLAND!—This foolish cry is again being raised, and it is said that, since the message was written, advices have been received from Mr. Buchanan, with certain correspondence respecting the enlistment question, which puts the two nations in a very menacing attitude towards each other. These additional despatches, if any have been received, (which we are seriously inclined to doubt,) will probably not be communicated to Congress till the House shall be organized which bids fair to be of no immediate occurrence. But be they what they may, we hold that a war between England and America is a perfect absurdity. It is, in our opinion, not within the range of possibility.

Nicaragua.

If rumors are true Walker has far from succeeded in successfully establishing his Government. It is reported in Washington that news has been lately received, the substance of which is that there is a general uprising of the citizens against Walker. The principle men have joined the opposition. Among them is a son. Rivas himself is virtually a prisoner of war in Walker's hands. The speedy overthrow of Walker is looked upon as the probable or certain result of the new movement.

Another step against Walker is about to be taken by our Government, the ratification of the Nicaragua *treaty*, which recognizes the claim of that State to the Mosquito coast and country, and in effect, therefore, is a guarantee of the title to the limits by her claimed.

Arrival of the Canada.

The Steamer *Canada* arrived at Halifax yesterday, after a very stormy passage. She brings Liverpool dates of Saturday, the 22d ult., three days later than those received by the Argo at New York. The Canada will probably reach Boston in good season for her mails to reach New York on the early train of Thursday.

The news by this arrival is simply confirmatory of the previous advices with the usual complement of peace rumors and speculations upon the result of Esterhazy's mission to St. Petersburg. A defensive treaty between Sweden and the western powers, has certainly been ratified.

No news of importance from the Crimea.

An Ambitious Young Editor.

One of the Editors of the *Squatter Sovereign*, Stringfellow's paper in Kansas, wrote recently:

"In view of the existing state of affairs, the Governor of Kansas has called out the militia, to execute the laws. Men are hourly passing our office with their guns on their backs, going to the assistance of the officers of the law. A large company, with two pieces of cannon, have started from Atchinson county. As both of the editors of this paper are going to the scene of action we have no time to enter into further particulars. We anticipate bloodshed, and we the junior, expect to wade waist deep in the blood of abolitionists."

Poor little fellow: He is evidently deranged or a natural idiot. It don't matter much which. If we were a betting character, we would be willing to risk a beaver that the fellow would run at the snap of a percussion cap. If he were treated to "a pill" from a Sharp's rifle, there would be one fool less at least.

Cold In The Polar Sea.

The severe cold of the last two days reminds us of what Dr. Kane, at an informal meeting of his friends at the New York University the other evening, related of the intense severity of the weather where he and his companions wintered in 1854. The thermometer was no longer a measurer of the temperature. Alcohol froze at once, and chloroform became almost solid. The only way to determine it was by a comparison of instruments. The lowest recorded temperature was between 70 and 80 degrees below zero. This is absolutely terrific. The present weather is tropical compared with such a temperature. In spite of such a climate, however, the huts of the Esquimaux were seen at the highest point reached by Dr. Kane, on the 80th parallel. Reindeer were also found there.

The explorations of the company made were while the temperature was sometimes at the lowest point above named.

Dr. K. expressed the opinion that with a properly organized company the Polar Sea might be reached, and he had no doubt that it would yet be reached and explored. We should not be at all surprised if he should before long head another expedition with this express object.

☞ Thos. Hood, Esq., of Madison, has been appointed Commissioner for the State of Wisconsin, to take the testimony of witnesses to be used on the investigation of claims against the United States, before the Court of Claims.

"Moving Accidents by Flood."

The St. Louis papers state that during the time trips of the ferry-boat between that city and Illinoistown, were suspended by the floating ice, several daring feats were performed by persons anxious to cross the river; and we are informed that some lives were lost. On Saturday morning, two men got on a piece of floating ice, and pushed off from shore; but they had proceeded only a short distance when they lost their footing, and fell into the water. They were never seen afterwards.

Another man procured a plank, fastened a rope to one end of it, and walked along the plank as it floated into the stream, until he reached a large iceberg. He then crawled on to the ice, and succeeded in steering himself to the Illinois shore. Thousands of persons watched the daring adventurer from the Levee; and when he gained a foothold on the firm ice near the land, and sank down from exhaustion, a prolonged cheer rose from the assembled multitude.

Lake Superior and South-East R. R. Co.

The Lake Superior *Miner* of December 1st reports the formation of a Railroad Company to be called the Lake Superior and South-east R. R. Co.—the line of road to be from Fond du Lac running north to the State line, at or near the line between ranges 32 and 33, thence by the valley of the east branch of the Ontonagon river to some point near the Minnesota mine, and thence to the city of Ontonagon.

The projected road is to embrace two branches, one to Marquette and another to the Clif mine, and thence to Copper Harbor.

☞ The New York *Tribune* says:

The Massachusetts Know Nothings do not make very successful progress as yet in their efforts to disfranchise the foreign population The Legislature of last year, in its zeal for this object, recommended an amendment to the Constitution "that *no person* should be entitled to vote in this Commonwealth unless he shall have been a resident within the jurisdiction of the United States twenty-one years, and legally naturalized." Should this amendment be adopted, the effect would be that none but naturalized persons would be allowed to vote Gov. Gardner recommends to drop this proviso and commence anew. It is dangerous for Know Nothings to meddle with edge-tools, and it is greatly to be apprehended that this sagacious party will end in Massachusetts as elsewhere, with cutting off its own head.

☞ Col. Parker H. French, Minister from Nicaragua, left New York for Washington on New Year's day. He has no intention of leaving this country within a reasonable length of time, as he has engaged a suite of rooms at the St. Nicholas Hotel for the winter months So says the *Herald*.

☞ The increase in the exports of Cotton from the United States since Sept. 1st 1855 compared with the same period in 1854, was 235,000 bales.

GEORGIA.—The census reports before the Legislature of Georgia show the following facts: White population, 542,567; slave population, 389,239; free persons of color, 3,586 total population, 935,094; number of families 99,695; deaf and dumb, 532, lunatics, 617.

☞ The number of live beeves and sheep brought to the New York cattle market during 1855 amounted to 737,592. This fact would tend to prove that the good people of our great Metropolis are far from being either Grahamites or Vegitarians.

☞ Complete Census returns from the office of the Secretary of State make the population of Illinois one million three hundred thousand two hundred and fifty-one.

☞ The Weston (Mo.) *Argus* of the 29th ult., announces, "by authority," that Mr. Atchinson is no longer before the people as a candidate for U. S. Senator, or any other office, State or Federal. He is pledged, as a citizen "to a gallant support of all our right in the States and Territories." It is rather superfluous in Mr. Atchinson to decline so soon after being voted down for Senator.

☞ According to the report of the Chief Engineer of the Fire Department of Cleveland the losses by fire in that city during 1855 were $96,000, against $302,009 in 1854—a large decrease.

☞ The Working Farmer, states that the value of the hog crop this year, in the United States, will fall little short of two hundred millions of dollars, or $50,000,000 more than the cotton crop.

BELGIANS IN BROWN COUNTY.—The Green Bay *Advocate* of the 3d inst. says: "A party of about fifty Belgians arrived at this city on Friday night last, via. Chicago and Milwaukee. They intend to locate in the eastern part of this county, and all appear to be abundantly supplied with the *needful* to purchase and improve farms. They report that about 2,000 more will soon leave the old country for this place, and may be expected here as soon as navigation opens in the Spring.

SLEIGHING AT GREEN BAY.—The Green Bay Advocate of the 3d inst says:

We are now having delightful winter weather—just enough snow to make the sleighing first rate. Those who have not been in the woods this winter, can have no idea of the amount of work now being done in getting out pine logs and clearing up land.

TWO BRICKS IN THE HAT.—Sheridan and Fox staggered into the House of Commons one evening, after a heavy libation of champagne and two or three rounds of billiards. One asserted that he couldn't see the Speaker, while the other made out two Speakers in the chair of that functionary.

The London reporters ever on the alert for news, considered this too good an item to pass unnoticed; and the circumstance accordingly appeared in some of the morning papers. The caricaturists of the day, too, equally on the alert, took up the subject, and apostrophized the affair thus:

"How's this, I see no Speaker, Dick—do you?"
"What! see no Speaker?—why, dem'me, I see two."

POLITICAL DEXTERITY!—Getting a Government Office Holder to disgorge his money in order to promote one's election, and then going to Washington and endeavoring to procure the removal of that officer!

STATE NEWS.

OUTAGAMIE CO.—The Appleton Cresent of the 5th, says that on Friday morning of last week, Mr. Nelson Phelps, of the firm of Thibits & Phelps, while standing upon the bridge which crosses Fox River at Appleton, examining it preparatory to making such repairs as might save it from the destruction momentarily threatened by the high water and accumulated ice, lost his foothold and fell into the Rapids! He was whirled down stream over the rocks and ice, with inconceivable rapidity, and soon sank to rise no more! This sudden and awful accident, cast a gloom over the Village, not yet dispelled. Mr. Phelps had many family connections of the highest respectability, and during his residence at Appleton, had won the esteem and confidence of the entire community.

It was feared for a time, that affliction would render Mrs. Phelps perfectly insane, but at last accounts she was recovering from the terible shock.

The Cresent has been informed that the Supervisors *have not granted a single Liquor License in* Appleton *during their whole term of office*! So that the Liquor Dens in town have no warrant of law, public opinion, or public necessity, for their nefarious, man-accursing, and happiness destroying trade.

Every man who sells Liquor in Appleton, is a violater of Law as well as Public Sentiment!

The Plank Road Bridge at Appleton, went off "with a rush" on Wednesday evening last

DOUGLAS CO.—We have received the Chronicle of the 11th Published at Superior City. The Editors state that their paper is now well established and that the success that has attended their enterprise exceeds all the anticipations they had formed. We are certainly glad of this and hope the sails of our nothern contemporary may always be filled by the winds of good fortune.

Many supplies, as we learn from the Chronicle, failed to reach Superior City this Fall, amounting in all to about one thousand barrels bulk.

Of the Fond du Lac mine, near Superior City, the Chronicle says: "This company, we are glad to learn, have secured a good road to their location, and are now busily engaged in getting up their supplies, machinery, stoves, ect.

The contracters for sinking the shafts are now at the mine, and are expected to commence work some day during the next week.

The schooner Algonquin reached here on Thursday evening last with twenty-five kegs of powder for this mine. Every thing necessary to commence operations are here, and the work will be pushed forward with dispatch."

RICHLAND COUNTY.—The Richland County *Observer*, published at Richland City, says that there are good openings in that County for saddlers, harness-makers, bakers, blacksmiths, watch, clock and jewelry repairers, shoemakers, clothiers, and most other kinds of business men. In that village there is an excellent opportunity for their location.

DANE COUNTY.—The *Argus* of Monday says, the ice on the lakes is frozen to the thickness of from one to two feet. Third Lake affords the finest field for sleighing in the world, and is perfectly safe. Fourth Lake is more filled with air-holes, which render it insecure for a team, as they are but thinly frozen over, and may break through at any time. Doubtless, however, the beaten tracks across it, which have been thoroughly tried, are quite safe for the passage of teams.

WINNEBAGO COUNTY.—The Menasha *Advocate*, of the 4th inst., says that a son of Mr. Raught, of that village, aged five years, met with a shocking and painful death a few days bays since. While playing around a boiler of hot water on the stove, he turned the contents of it over on him, scalding him in a terrible manner. He lived about an hour after, when Death came to his relief.

It also says "Wheat commands $1,25 a 1,37 for Spring, to $1,50 for Winter, and nearly all our farmers holding on for higher prices—Corn sells at 65 a 70 cts per bush. *in the ear*, and Oats are sold grudgingly at 56c. Pork $6 a 8 per cwt. Beef ditto. Poultry 10 a 12½ cts, per lb. Butter 25 a 37½ cts. Potatoes 50 a 60 cts. Eggs nowhere. Prairie Hay from $7 to 10 per ton."

[From Fred Douglas's Journal.]

NEGRO HATRED IN THE UNITED STATES.—A rich coffee dealer from San Domingo was recently denied a cup of coffee in an eating house in Boston, because it was against the rules of the house to furnish anything for colored persons. He insisted on being served, as he had a perfect right to do so, and the attendants finally sent for a police officer to remove him.

We were somewhat surprised to learn that the colored gentleman alluded to experienced such treatment in Boston. When we (the junior editor) went to Boston some six years ago, we received similar treatment in the apothecary store in the Revere Building.—We went in, laid down sixpence deliberately, and called for a glass of soda water. The boy in attendance, not observing at first sight our indentity with the hated race, began to let the soda fly, when the proprieter entered. He did not need spectacles to spy out the rich negro blood which courses through our veins. 'Don't sell soda to colored people," said he.

We took the glass in our hands, looking him full in the eye, and quaffed the delicious nectar. Said he, "*I don't want you to come here again.*" We told him it depended altogether upon one thing, and that was, whether or not we happened in that vicinity when we were thirsty. If so, we should certainly give him a call, as he kept a public store. Strange enough, on passing the next day, we were *very* thirsty, and walked in as any other thirsty man would do. Just as we approached the fount, a gentleman was setting down a glass, when we called for one to drink in like manner. The proprietor efused to wait upon us, and we waited upon ourself, much to his annoyance.

The next time we felt thirsty, our steps were attracted thither, and we received what we asked for, without any trouble, the proprietor remarking that he would not refuse us, but "*no black man should drink from his fountain.*" We laughed heartily, but went back no more.—Now, however, therefore, there are few such places in Boston. We should judge that the colored gentleman who was refused a cup of coffee, stumbled upon one of the few saloons in which a colored man is allowed to make a cup of coffee, but not to drink it. Should we visit Boston again, we may drop in, under the Revere House, in order to see if our old acquaintance has relapsed into his old habits, and if he has, oncemore to "argify" the matter with him.

Bold Roguery.

Under the above caption the St. Louis *Democrat* gives an account of a recent incident that occured in that city, which we think, stands almost unequalled in the annals of roguery.—Says the *Democrat*,

Monseur Maurace Dejamer, lately arrived in our city, on New Year's day he was passing along Fourth Street, when he met a friend, and invited him to come to his hotel, and take dinner at his room. During the conversation the house and number of the room were all given, and all *heard* by a third party who happened to be standing by, and who, as it turned out, was a scoundrel of the deepest dye.

The third party, doubtless on the lookout for a chance, caught an idea at once, and hastened to the hotel in advance of the Frenchman and his guest; represented to to the landlord that he was the newly employed servant of Monsieur, and that his governor would soon be along to order dinner in his room.

The Frenchman and friend came and ordered dinner. The servant who waited on them was the same individual that heard their conversation on the pavement. The landlord thought, of course, Monsieur would prefer his own domestic; and the Monsieur was highly pleased indeed, that the landlord should provide him with such an attentive servant.

The dinner was eaten with relish, and the wine and jovial conversation flowed freely between host and guest.

Suddenly, as the servant was removing the dishes, he *accidentally* stumbled, and the contents of one of the half consumed dishes was spilled upon Monsieur's coat. The confusion was great, as may be supposed, and the owner of the coat let off a volley of mingled French and English execrations at the stupidity and awkwardness of the servant, who was very humble in his apologies, and assured Monsieur that if he would just take off his coat, and let him take it down stairs, he would bring it back presently, as good as before, without stain or blemish.

The owner parted with his coat, and at the same time, which he did not find out till afterwards, parted forever with a roll of money in one of the coat pockets, and one or two other articles of value.

The servant had decamped. The Frenchman had been robbed. The landlord was dismayed. Everybody swore *sacre*.

DAILY DEMOCRAT.

C. D. BOOTH, - - - - - Local Editor.

WEDNESDAY::::::::::::::::::::::::::::JAN. 9.

THE WEATHER.—The weather still continues very cold, there being no abatement whatever, in the temperature. The thermometer has run down clear out of sight. Last evening, at 11 o'clock, it stood at 24 degrees, the coldest we have ever experienced in this State. The cold has been equally severe at Madison, and other places. At St. Louis, yesterday, the mercury stood at 10 degrees below zero, the coldest ever known there, and at Cincinnati, it marked 8 degrees. It is without doubt the coldest spell of weather that has been felt in the Western States, for many years.

THE MILITARY.—The Military Companies returned yesterday afternoon from Madison, where they had rather a cold time, in parading around in honor of Gov. Barstow's inauguration. We understand that the "Light Guards" were not treated as his particular friends, and we learn that before they left they gave Gov. Bashford nine hearty cheers. Many of the troops had their fingers, toes and ears, frozen, and we hear that a member of one of the German Companies had his hands frozen so badly that it is feared amputation is necessary.

ENGINE CO. NO. 6.—At the annual meeting of Filmore Co. No. 6, held last evening, the following officers were chosen, for the ensuing year:

Foreman, Thomas M. Bohan; First Asst., B. S. Quinn; Second Asst., Timothy Buckley; Secretary, Thos. Nolan; Treasurer, Thos. F Hoye; Hose Captain, James Marley; Asst. Daniel Sullivan; Warden, Martin Phelan; Steward, John Ballard; Trustee for 2 years, Henry Middleton.

LIGHT GUARD'S SOIREE.—A bright and happy company assembled at the Armory last evening, and the "Soiree" was all that could be asked, in every respect. The supper was excellent, as every one knew it would be, when it was learned that Belden was to provide it.—The Company deserve credit for the manner in which these parties have been conducted.—Three cheers for the "Light Guards," and may they all live to enjoy a thousand more parties as pleasant as that of last evening, say we.

THE CELEBRATION TO-MORROW.—An excursion train leaves this city to-morrow morning, on the La Crosse R. R., for Horicon, to participate in the celebration of the opening of that Road to the latter place. A "Celebration Party" takes place in the evening, at the "Winter House." L. N. CLARKE, the gentlemanly proprietor, has made ample arrangements to accomodate his guests, and he will doubtless have a house full. We wish a happy time to all those who participate in the festivities.

DETENTION.—The cold has its effects upon the running of the Railroad trains. The morning train on the M. & M. R. R. of Monday, did not reach Madison till 3½ P. M., and the express train which left Madison yesterday morning at 7 o'clock, did not reach here till 4 P. M.

☞ The friends the Rev. J. P. T. Ingraham will please bear in mind that they are to pay him a visit this evening, at his residence. We hope they will also bear in mind that their Pastor is worthy of their benevolence, and give him a substantial token of their appreciation and friendship.

NEWS.—We shall devote our paper chiefly to home matters for the next few weeks, till we can advise some way to get the general news in advance of our readers, who mostly take eastern and southern newspapers. — *Prescott Transcript.*

We should think the better way would be to devote a portion of your paper to local matters all the time.

WHY WILL YOU SUFFER!

Read the testimony of Dr. H. P. LEONARD, Druggist, Fayette, C. H., Ala., January 15, 1853.

DEAR SIR:—Hoofland's German Bitters have done wonders in this section. A youth, a son of G. M. Hubbert, Esq., of this county, had been for several months under the care of our best practitioners without relief, and the case reported doubtful, and the young man, altho' scarcely able to get about, commenced with the Bitters. He found so much relief from the first bottle, that he continued to take it until a complete cure was effected. He is now perfectly well and stout.

All who use the Bitters are satisfied with them.

RICHMOND, July 9th, 1855.

Messrs. WM. S. BEERS & CO.:—

GENTLEMEN:—Considerations of duty to the afflicted alone prompt me to send you this voluntary testimonial to the great value of CARTER'S SPANISH MIXTURE, for that almost incurable disease, Scrofula.

Without being disposed, or deeming it necessary, to go into the particulars of the case, I can say that the astonishing results that have been produced by that medicine, on a member of my own family, and under my own observation and superintendence, after the skill of the best physicians had been exhausted, and all the usual remedies had failed, fully justify me in recommending its use to all who may be suffering from that dreadful malady.

I do not mean to say that it is adapted to all constitutions, or that it will afford the same relief in all cases:—for, of course, I can know nothing about that—but from what I have seen of the effects, I would not hesitate to use it in any and every case of Scrofula, with persons for whom I felt an interest, or over whom I could exercise influence or control. Respectfully Yours,

AYER'S PILLS.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical *pill*, but not easy to make the best of all *pills*—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative medicine is acrimonious and irritating to the bowels. This is not. Many of them produce so much griping pain and revulsion in the system as to more than counterbalance the good to be derived from them. These *pills* produce no irritation or pain, unless it arise from a previously existing obstruction or derangement in the bowels. Being purely vegetable, no harm can arise from their use in any quantity; but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperient they afford prompt and sure relief in Costiveness, Piles, Colic, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Erysipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions see wrapper on the Box.

AYER'S CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING-COUGH, CROUP, ASTHMA, AND CONSUMPTION.

THIS remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. And not only in formidable attacks upon the lungs, but for the milder varieties of COLDS, COUGHS, HOARSENESS, &c.; and for CHILDREN it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by—W. L. Hopkins & Bro., H. Bosworth & Sons, Agents Druggists in Milwaukee, and by dealers generally throughout the country.

THE OPINION OF A LADY,
Who knows Mr. WEVER, and has bought Goods at
WEVER'S
DRY GOODS PALACE!!
—AND—
CARPET ROOMS.
158 East Water Street.

Come to the *Palace*, O! come there with me,
Where Fashion, in splendor still holds her levee,
And somebody tells you that Beauty is sold
To Youth or to Age, in exchange for gold;
And their Lady-like charms through life may prolong,
In robes like a Queen's, which sell for a song;
They've Shawls for the taste, and Shawls for the storm,
They've Cloaks which fall softly, so rich, and so warm
They've Carpets of Wilton, of Velvet, and Brussels;
They've Laces, and 'Broideries, Ribbons, and Tassels;
They've umbrellas; Goods, for the weeping and sad
They've suits like the sunshine, for merry and glad;
They've fabrics for millions and hold their levee
For those who pay tribute, or come but to see.
If Palace of Dry Goods, so wondrous grand,
Can be aught but a fable, of old Fairy land;
But those who know WEVER, can't doubt for a minute
This glorious Palace, and all that is in it.

Yours, C. H. G.

Now I blush, indeed I do. What modest, married man would not? Yet I console myself with the idea that Beauty always pays tribute to Worth and Merit. Thanking sincerely yet humbly my fair contributor, I trust that by honesty, uprightness and my gentlemanly bearing, I may ever command her respect.

THE OLD EAGLE GOING IT WITH A RUSH

The Eagle

STEAM FOUNDRY

OF

TURTON & SERCOMB,
296, 298, 300, 302 and 304, West Water Street

IS still in full blast, working day and night to supply the daily increasing wants of the Badger and other States.

In order the better to do this the proprietors have erected a large brick Foundry in addition to their former premises. They have added to their stock of Tools a large Planeing Machine or Shaping Machine, three Lathes, and a machine for making bolts, and are now putting in a Steam Engine of — horse power to drive the whole, thereby adding to their former facilities for the successful carrying on of the Foundry, Machine, Engine, and Blacksmithing business. They never were in a better position for doing business, and defy competion in any department.

In regard to the character of the work got up by this, *The Oldest Establishment in the State,* the Proprietors refer to that in successful operation thro' the country as their best recommendation, as it can speak for itself. All they can say is, that they are both PRACTICAL MECHANICS, and know how work should be done as well as the next man. They continue to manufacture **Flour and Saw Mill Gearing and Steam Engines,** on the most approved principle.

They have always on hand a large stock of BRASS WORK, such as *Guage and Cylinder Cocks, Oil Cups & Cocks, and Steam Whistles.* Also *Turton's Files,* which they will sell at the lowest cash prices.

They are also Agents for *Eastman's Patent Steam Guages,* which are well worth the attention of all who use Steam Engines.

In conclusion, they invite a continued share of the patronage of their old friends, and solicit a call from all those in want of Saw or Flouring Mill Work, assuring them that no exertions will be spared to render the Old Eagle worthy of the reputation it has already gained.

Their motto is, "*Excelsior.*"

GRAT ARRIVAL

—OF—
PIANO FORTES, MELODEONS AND MUSICAL GOODS!

AT NO. 175 EAST WATER STREET.

THE SUBSCRIBER IS NOW RECEIVING AN EXtensive stock of superb Pianos, and other Musical Instruments, selected by himself from the best manufactories in the United States, and warranted equal to any in the world

He would particularly invite the attention of the Musical public to an **Entire New Style of Piano Forte,** invented and perfected by the late Jonas Chickering, and called the Parlor Grand, or Cecilian Piano.—This is probably the most perfect instrument of the Piano kind ever invented, combining as it does all the peculiarities of the full Grand Piano, without its disadvantages in regard to size. Also, several of Boardman & Gray's **Improved Scale Pianos,** with their new and ingenious invention—the Patent Corrugated Sounding board, universally admired and recommended by the musical profession. Twelve Gold Medals and Premiums have been awarded to these instruments within a few years past, and the demand for them from all parts of the world is entirely unprecedented.

Every instrument sold by the subscriber has either been made expressly for him, or has been carefully selected from large stocks. He is therefore enabled to warrant his Piano Fortes in every particular, as being excelled by none.

The subscriber is the only agent in this city for following Piano makers:

CHICKERING & SONS, Boston.
BOARDMAN & GRAY. Albany.
W. P. EMERSON, Boston.
FIRTH, POND & CO., New York.

Prices the same as if purchased directly from the Manufacturers, and the money refunded if the Instrument does not prove satisfactory.

The lovers of Music are invited to examine this elegant stock of Musical instruments.
